

Snapshot Wisconsin: Making Observations

The following images are from Snapshot Wisconsin trail cameras. Cameras capture hundreds of images each year, these example photos are meant to give you an idea of what activity happens at these trail camera sites.

Disclaimer: we are not able to give the total “picture” in just six images – there are animals at these sites that aren’t reflected in these photos.

Please keep this in mind while making observations. Enjoy!

Part 1: Making Observations

Example Observations

Example Observations:

- What species of animal?
- Are there multiple animals? Or species?
- How are the animals behaving?
- What is the habitat? What plants?
- Are the animals interacting with there environment?
- What time of day is it?
- Do you expect to see this animal this time of day?

Part 1: Making Observations

Example Observations

Example Observations:

“There is a deer foraging in the foreground of the photo, and a big group of cranes in the background. They aren’t flying away so the deer might not be a predator.”

“The habitat looks grassy with water, maybe a wetland? The trees have no leaves and the ground looks brown.”

“I haven’t saw cranes here in the winter, they might be migrating.”

“The sun is rising. These animals may be active in the mornings.”

Part 1: Making Observations

Single Photo Observations

Part 2: Observations Across Time

Daytime Observations (8:35 AM)

White-tailed deer
Odocoileus virginianus

Part 2: Observations Across Time

Daytime Observations (9:37 AM)

Red-tailed hawk
Buteo jamaicensis

Part 2: Observations Across Time

Daytime Observations (10:03 AM)

Wild turkey
Meleagris gallopavo

Part 2: Observations Across Time

Daytime Observations (3:31 PM)

Easter gray squirrel
Sciurus carolinensis

Part 2: Observations Across Time

Daytime Observations (3:34 PM)

Woodchuck
Marmota monax

Part 2: Observations Across Time

Daytime Observations (5:12 PM)

White-tailed deer
Odocoileus virginianus

Part 2: Observations Across Time

Daytime Observations (6:57 PM)

Elk
Cervus canadensis

Part 2: Observations Across Time

Nighttime Observations (11:05 PM)

Porcupine
Erethizon dorsatum

Part 2: Observations Across Time

Nighttime Observations (12:09 AM)

Raccoon
Procyon lotor

Part 2: Observations Across Time

Nighttime Observations (2:36 AM)

Striped skunk
Mephitis mephitis

Part 2: Observations Across Time

Nighttime Observations (3:07 AM)

White-tailed deer
Odocoileus virginianus

Part 2: Observations Across Time

Nighttime Observations (5:02 AM)

American badger
Taxidea taxus

Part 2: Observations Across Time

Nighttime Observations (5:55 AM)

White-tailed deer
Odocoileus virginianus

Part 2: Observations Across Time

Daytime / Nighttime Comparison

Part 2: Observations Across Time

Summer Observations

White-tailed deer
Odocoileus virginianus

Part 2: Observations Across Time

Summer Observations

Black bear
Ursus americanus

Part 2: Observations Across Time

Summer Observations

River otter
Lontra canadensis

Part 2: Observations Across Time

Summer Observations

Snowshoe hare
Lepus americanus

Part 2: Observations Across Time

Summer Observations

Wild turkey
Meleagris gallopavo

Part 2: Observations Across Time

Summer Observations

White-tailed deer
Odocoileus virginianus

Part 2: Observations Across Time

Winter Observations

White-tailed deer
Odocoileus virginianus

Part 2: Observations Across Time

Winter Observations

Wild turkey
Meleagris gallopavo

Part 2: Observations Across Time

Winter Observations

White-tailed deer
Odocoileus virginianus

Part 2: Observations Across Time

Winter Observations

Snowshoe hare
Lepus americanus

Part 2: Observations Across Time

Winter Observations

White-tailed deer
Odocoileus virginianus

Part 2: Observations Across Time

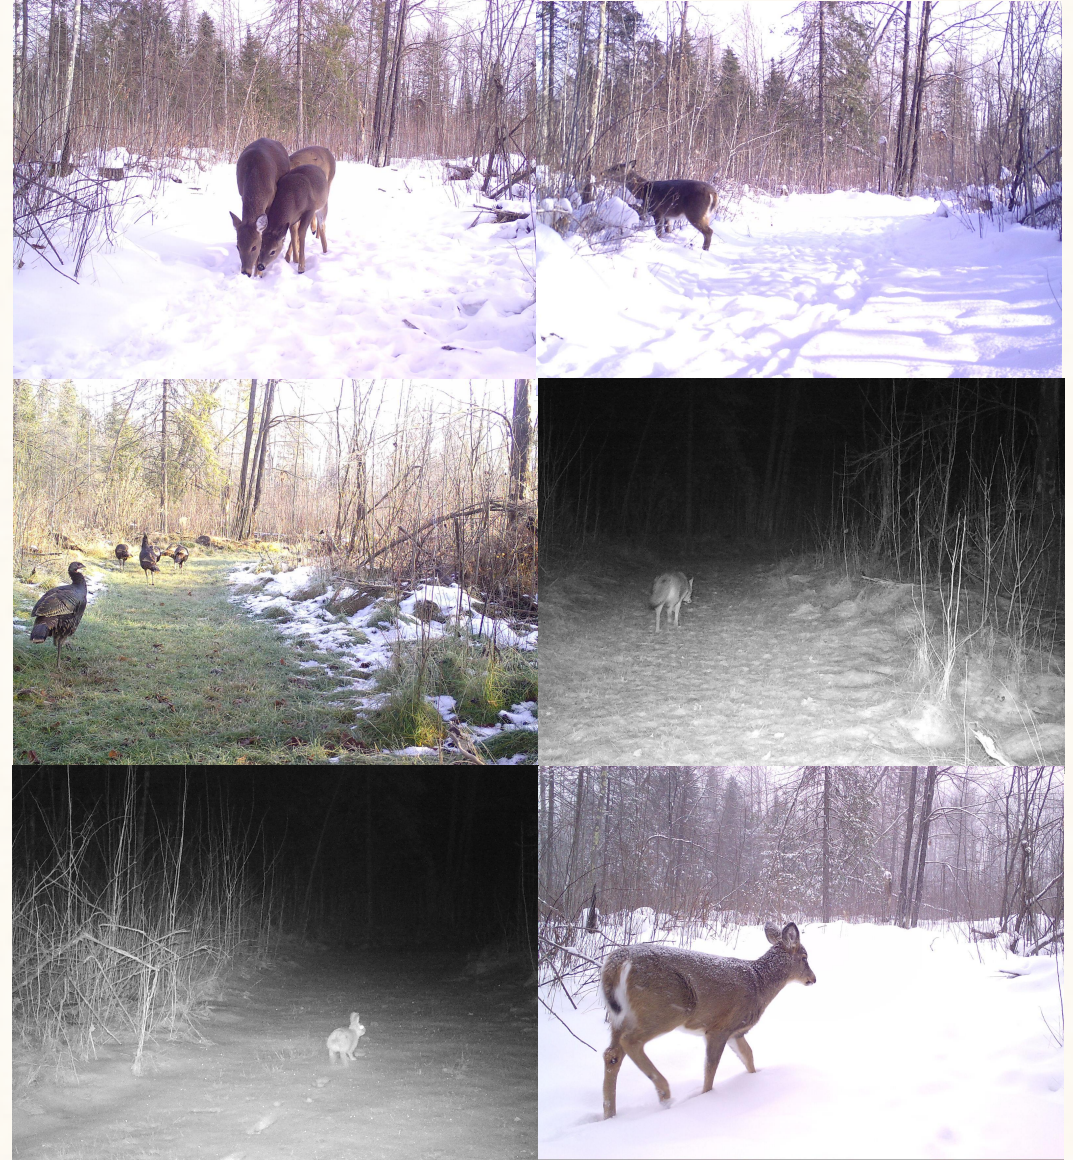

Winter Observations

Coyote
Canis latrans

Part 2: Observations Across Time

Summer / Winter Comparison

Part 3: Observations Across Space

Northern Lakes and Forests Ecoregion

Black bear
Ursus americanus

Part 3: Observations Across Space

Northern Lakes and Forests Ecoregion

Elk
Cervus canadensis

Part 3: Observations Across Space

Northern Lakes and Forests Ecoregion

White-tailed deer
Odocoileus virginianus

Part 3: Observations Across Space

Northern Lakes and Forests Ecoregion

Fisher
Martes pennanti

Part 3: Observations Across Space

Northern Lakes and Forests Ecoregion

Coyote
Canis latrans

Part 3: Observations Across Space

Northern Lakes and Forests Ecoregion

Black bear
Ursus americanus

Part 3: Observations Across Space

Northern Lakes and Forests Ecoregion

Gray wolf
Canis lupus

Part 3: Observations Across Space

Southern Wisconsin Till Plains Ecoregion

Sandhill crane
Grus canadensis

Part 3: Observations Across Space

Southern Wisconsin Till Plains Ecoregion

Raccoon
Procyon lotor

Part 3: Observations Across Space

Southern Wisconsin Till Plains Ecoregion

Cedar waxwing
Bombycilla cedrorum

Part 3: Observations Across Space

Southern Wisconsin Till Plains Ecoregion

White-tailed deer
Odocoileus virginianus

Part 3: Observations Across Space

Southern Wisconsin Till Plains Ecoregion

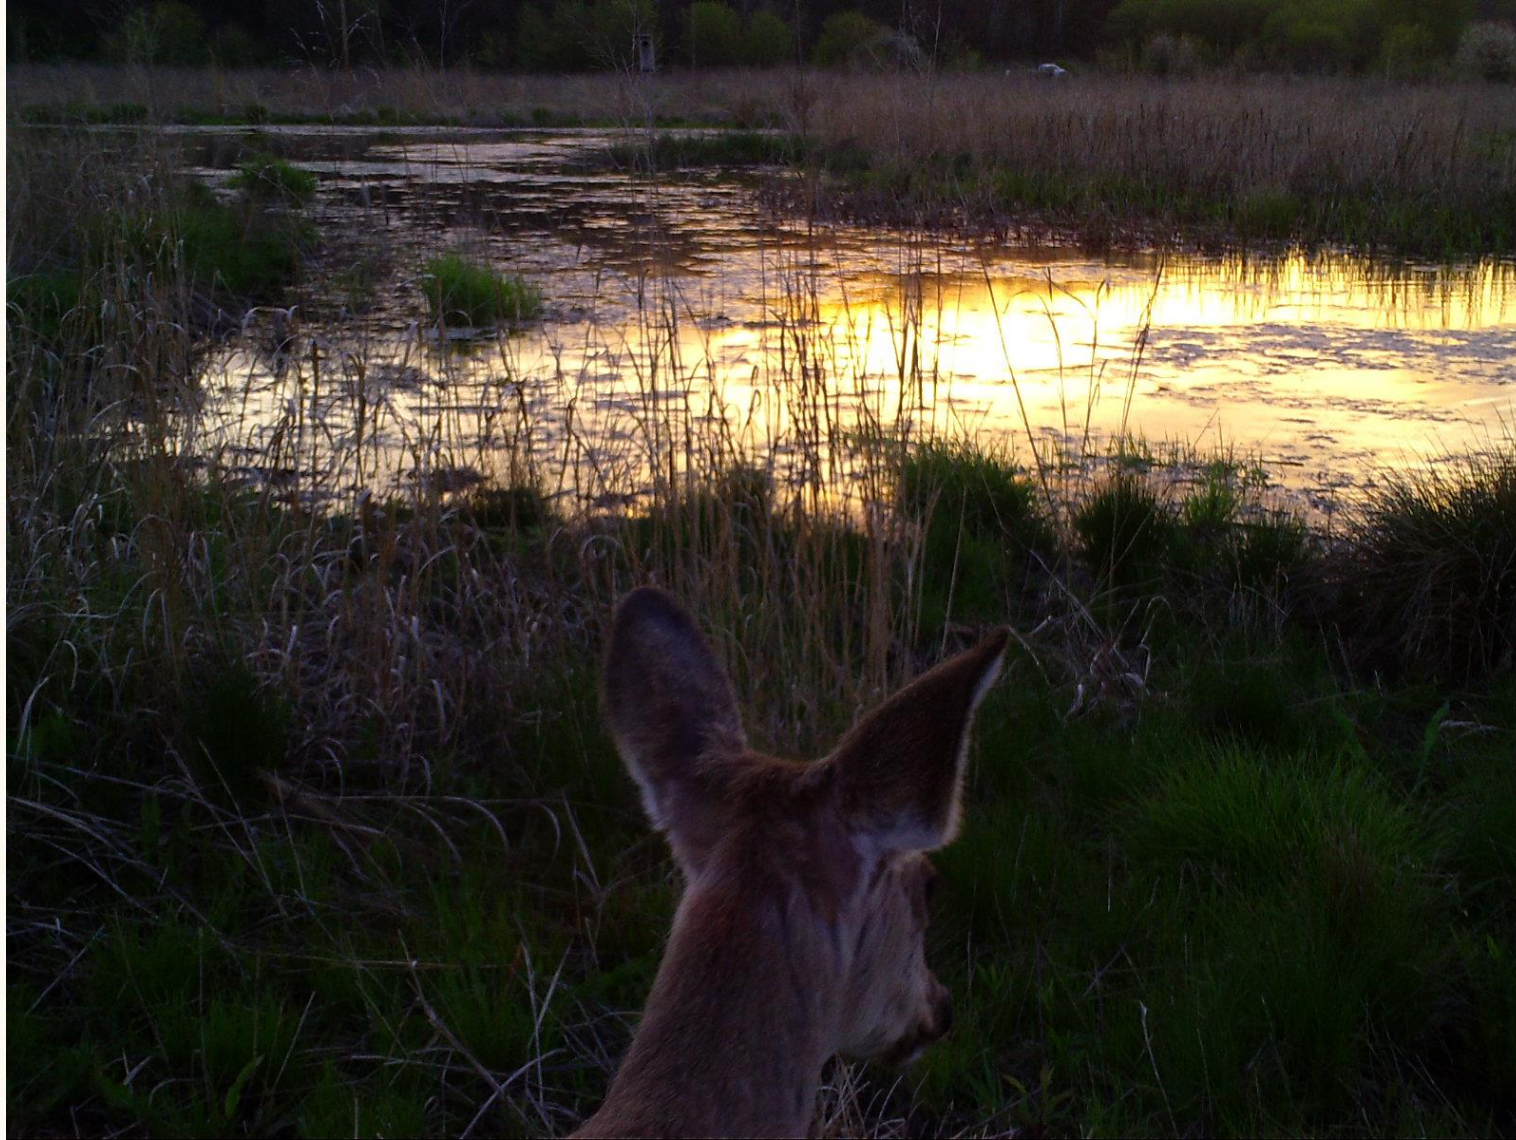

Coyote
Canis latrans
